## A Museum On The Move...

Here at Carlton Colville you will find a museum unique to the last detail, for this is the only place in the British Isles where visitors can not only view, but also ride on all three principal forms of public transport from the earlier part of the 20th Century.

Once inside the museum there is so much to see and do that you'll want to stay all day. Whether you take a ride on the Woodland Tramway or experience the silence and comfort of the trolleybus service, there is a new discovery to be made every minute. Or why not soak up the atmosphere of the museum with a walk through our street scene - complete with authentic street furniture. There is also ample opportunity to view the many vehicles in the museum collection and see how these are restored to their former glory. Hear the swish of trolley poles, the purr of the diesel engine or the rhythmic hiss of steam, making this a real trip back in time.

Explore the Exhibition Halls housing many historic vehicles and artefacts!

Ride on the 2ft Gauge East Suffolk Light Railway - a firm family favourite!

Learn about the transport of times past through informative and interactive displays!
