

## St PAUL'S CATHEDRAL MONDAY 21 JANUARY 2008

This visit has been organised by George Freeman

St Paul's Cathedral is known to every one but few have been on guided tours. The Triforium Tour tells us of the history and building of the cathedral and takes us around the triforium, the library and Wren's original model for the cathedral. The Super tour takes us around the rest of the cathedral including the crypt.

The tickets give us access to the Whispering Gallery, Stone Gallery and Golden Gallery, the last two being outside. Do not attempt these if you suffer from vertigo. The Triforium tour also has a long stair to climb, but not as many as the galleries.

**MEET** in the undercroft; toilets, coffee, etc. The entrance is on the North side of the Cathedral at the west end in St Paul's Churchyard.

**LUNCH** can be taken in the crypt restaurant, café or outside in a coffee bar.
