

Short Report

Thames Barrier - the Technical Tour on Wednesday 21st May 2014

For the record, this seems to have been a successful trip. We were lucky with the weather and I received no complaints and quite a few positive reactions.

Members particularly enjoyed the opportunity to enter the working areas of the Barrier to view the mighty hydraulic rams which operated the gates.

The sandwich lunch was well priced, of acceptable quality and cheerfully served.

It had been fully booked and 25 out of the 26 booked attended.

Young Sam was brought along for the day and seemed to enjoy himself.

(Tony Colclough, organiser, received 6/6/2014)
